Benue State.

Date: 15th Dec. 2022

The Chairman

AN-NYA FOUNDATION

Dear Dr. Peter,

We the Management and Staff of St Mary's hospital Okpoga write to officially express our gratitude for all your support to the hospital. Your collaborations with us have indeed improved the standard of care and also impacted knowledge to us. The collaboration was very timely because we wouldn't have had all the resources on our own to do all you have done for us. Our country's economy keeps going on the negative side so the effects on us as a hospital have always been taken care of by your donations.

We specifically wish to mention the scholarship of Mr Augustine Agbo who just graduated from the school of anaesthesia. His assistance and experience during the holidays, while he was in school, was very tremendous. He has now graduated successfully and returned to work. We are seeing good changes already to our surgical procedures. We had a good mission in November 2022 with Dr Peter Nussbaumer and Dr. Flurina Hostettler despite the fact that, the other team members could not make it due to embassy's delay in processing their visa. The mission still went as planned and recorded a huge success. We now have a stabilized process of registration of all the doctors that will come for any mission. We are happy about it. There were so many teachings done by the team in the last mission. We have put in place algorithms for all the processes for the missions and also some other procedures that are not surgical in nature.

We had some meetings with Dr Peter and Flurina, we will implement all their concerns. We can't thank you enough. God bless you and your families

At this junction, may we use this opportunity to wish you all a very happy Christmas and prosperous new year.

Yours Sincerely

Rev Sr. Christiana Obe

(for the Management)
